

# Cisco TrustSec Technology Reduces Operational Costs, Simplifies Security Engineering, and Increases Agility

Forrester interviewed customers that had deployed Cisco TrustSec. The software-defined segmentation solution simplifies the provisioning and management of highly secure access to network services and applications.

## 3-year financial summary showing risk-adjusted results

**140%**  
Return on  
investment

**\$2.33**  
Million net  
present value

**80%**  
Reduction in  
IT operational costs

**98%**  
Reduction in time to  
implement changes

## How?

Savings from cost  
avoidance of alternative  
traditional solution

Reduction in it  
operations cost

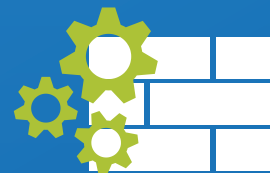

Improved network  
resilience with lower  
risk of downtime

Faster time  
to market for project  
roll-out

Simplified and  
automated firewall  
rule management
