

How to Access Cisco StadiumVision Director

Revised: May 1, 2015
Software Release: 3.0 and Later Releases

Quick Facts

- You can use an Apple Mac or Microsoft Windows PC or laptop using a supported browser to access Cisco StadiumVision Director.

For the latest information about hardware and software requirements, such as browser requirements for your software release, see the corresponding Release Notes for your software release at:
http://www.cisco.com/en/US/products/ps11274/prod_release_notes_list.html

- If you leave a session idle for 30 minutes it will timeout.

Task

To access Cisco StadiumVision Director, complete the following steps:

Action

- Step 1** Using a supported browser version, open a browser window and type the URL for the Cisco StadiumVision Director server in the following sample format, where *ip-address* is the IPv4 address of the Cisco StadiumVision Director server:

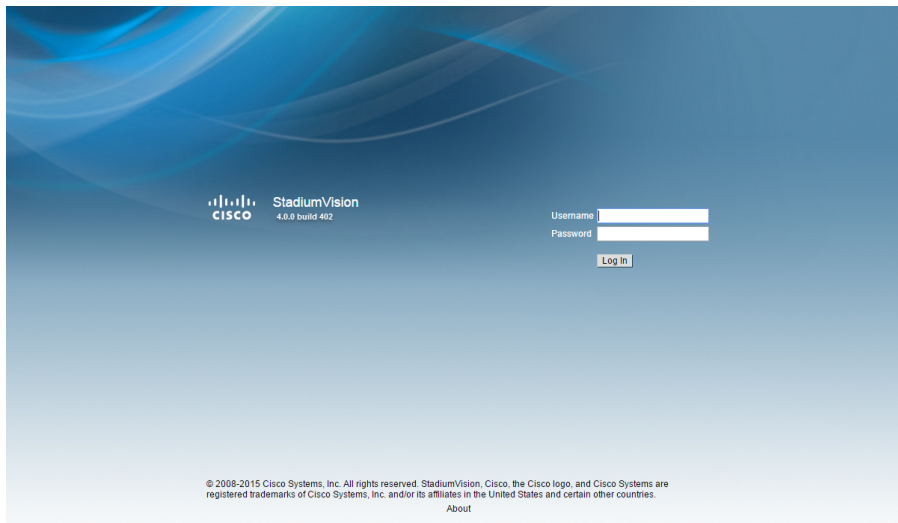

https://ip-address

or

http://ip-address

- Step 2** Log into Cisco StadiumVision Director with your account information. Type the account Username and Password in the corresponding boxes and click **Log In**.

- Step 3** If this is the first time that you are logging in, or your administrator has configured a request for reset, you may be asked to change your password. Type your current password in the first box, and then type your new password in the next two boxes for confirmation of syntax. Click **Save**.
-

Action

Step 4 From the Cisco StadiumVision Director main menu, click the icon to go to a specific application area. A new browser window opens displaying the software area that you selected.
