

Service Description: Cisco IronPort Platinum Support

This document describes Cisco IronPort Platinum Support offerings ("Support").

Direct Sale from Cisco IronPort. If you have purchased these Support services directly from Cisco IronPort, this document is incorporated into your purchase agreement with Cisco IronPort.

Sale via Authorized Reseller. If you have purchased these Support services through an authorized reseller, this document is for description purposes only; and the contract, if any, governing the provision of the Support service will be the one between you and your authorized reseller. Your authorized reseller should provide this document to you, or you can obtain a copy of this service description at: www.cisco.com/legal/services.html.

Platinum Support - Summary

Cisco IronPort Platinum Support Overview: The Cisco IronPort Platinum Support Program provides a comprehensive array of support services to assist in the administration and maintenance of Cisco IronPort security products. Features are designed to meet the demands of global customers, who require acute attention for their mission-critical business solutions. Further detail is provided in [Table A](#) below.

Cisco IronPort Support Feature Summaries

Platinum Support:

- 24 x 7 x 365 Support for Severity 1 issues
- 24 x 5 Support for Severity 2-4 issues
- Ticket Management Options
- Cisco IronPort Customer Support Web Site at: <http://www.cisco.com/web/ironport/index.html>
- Hardware and Software Support

Support Case Management

- Appliance – Open a Support ticket directly via your Cisco IronPort Appliance
- Web - Manage tickets via the Cisco IronPort Support Portal: <http://www.cisco.com/cisco/web/support/index.html>
- Email - Email from registered administrator addresses to (support@ironport.com)
- Phone – Call Cisco IronPort's Global toll-free international phone numbers (see [Table B](#) below, or URL: <http://www.cisco.com/web/ironport/contacts.html>)

Support Obligations and Limitations

Cisco IronPort Responsibilities: Support services for customers with valid Platinum Support includes:

- Phone and Email Support services for problem diagnosis
 - Remote Diagnostics – Cisco IronPort Support Engineers have the ability to perform remote diagnostics via Support tunnels (initiated upon customer request)
- Efforts to cure reported and reproducible Errors in the Software.
- Software patches, updates, releases and new versions of commercially-released Software.
- Hardware Support - In the event of a critical hardware malfunction, Cisco provides field units and hot-swappable replacement parts with RMA installation and return instructions.

Customer Responsibilities: The provision of the Support services assumes that Customer will:

- Use reasonable efforts to resolve internally any support questions prior to requesting Support services
- Report Errors promptly in writing in English
- Provide sufficient information to allow Cisco IronPort to duplicate the circumstances indicating a reported Software defect or Error
- Promptly incorporate the bug fixes, patches, updates, upgrades, releases and new versions provided hereunder
- Provide all reasonable cooperation access and full information to Cisco IronPort with respect to Cisco IronPort's furnishing of Support hereunder
- Back-up configurations on a regularly scheduled basis since configurations are generally not recoverable from failed hardware. Cisco IronPort will not be responsible for configuration recovery in the event of a hardware failure.
- For hardware replacement Support – return defective or returned Products in accordance with RMA instructions, properly packaged, and within 60 days of RMA issuance
- For remote Support – provide reasonable access, at Customer's expense, to the Product through internet to establish a data communication link between Customer and the Cisco IronPort engineer and systems passwords so that problems may be diagnosed and, where possible, corrected remotely.

Cisco IronPort may obtain information regarding customer's email communication and web traffic and, as a condition to Cisco IronPort's provision of Support services to customer, Cisco IronPort may use statistical data generated regarding customer's email and web traffic to improve its offerings (neither the source nor content of the information underlying the data will be disclosed).

Support Limitations:

- Software is supported up to 18 months from its initial release, or for two subsequent major releases, whichever comes first. More details on the Cisco IronPort Discontinuance Policy can be found at: http://www.cisco.com/web/ironport/product_discontinuance.html.
- Cisco IronPort has no obligation to provide Support and Maintenance obligations if:
 - The product was not used as specified by Cisco IronPort's specifications and Cisco IronPort reasonably believes that such use caused the Error;
 - The product software was altered, modified or corrected without Cisco IronPort's prior written consent; or
 - Another cause, within customer's control, caused the Error or a defect in the Product or Software.
- The term and associated fees for Cisco IronPort Platinum Support will be specific to customer's purchase of Support based on the then-current Cisco IronPort price book at time of purchase.

Severity 4 – Request (information or new feature) – Non-service affecting. To-do items, such as tech notes, Q&As. Target response time of 24 hours.*

*Severity 1 target response times are measured in calendar hours – 24 hours per day, 7 days per week. Severity 2, 3 and 4 target response times correspond with Standard Business Hours. See [Table A](#) for further information.

Terms Used

Error - means a failure of the Software to perform materially in accordance with the Documentation.

Documentation – means the user manuals and other written materials for the Products provided by Cisco IronPort.

Products – mean the Cisco IronPort hardware and software products, as made available to customers and published on Cisco IronPort's then current price list.

Software – means the software contained on the hardware Products in object code format. Any one-off modifications or enhancements offered to customer(s) as an accommodation shall not waive or diminish Cisco IronPort's right to determine, in its sole discretion, whether or not an enhancement constitutes an update or new product.

Severity and Escalation Guidelines

Severity 1 – Critical (operation stopped) – Product failure or problem with essential feature that results in an unacceptable user experience. Customer-acceptable workaround does not exist (service or service-level outage condition). Target response time of < 1hour.*

Severity 2 – Serious (operation restricted) – Service affecting. problem with valued feature/capability that precludes or otherwise materially adversely impacts its use. Customer-acceptable workaround exists. Target response time of 4 hours.*

Severity 3 – Important (workaround available) – Non-service affecting. Product is not performing and/or operating as specified; typically a problem affecting Product clarity, efficiency, performance against specifications, Documentation, etc. Either no workaround required or easy workaround exists. Target response time of 24 hours.*

TABLE A – Platinum Support Benefits Table

	Platinum Support
Support Requests	
Phone, Email & Web	24/7
Technical Support	
Office hours (critical and non-critical issues)	Monday 12 a.m. – Saturday 2 a.m. UTC/GMT Sunday 4 p.m. – Friday 6 p.m. PST
